(54) Title: METHOD OF PHOTOCHEMICAL IMMOBILIZATION OF LIGANDS USING QUINONES		
(57) Abstract A method of immobilizing a ligand (L) to the surface (P) of a carbon-containing substrate material; said method comprising: a photochemical step of linking of one or more photochemically reactive compounds (Q) to a carbon-containing material surface (P); wherein the photochemically reactive compound (Q) is a quinone compound containing a cyclic hydrocarbon, or from 2 to 10 fused cyclic hydrocarbons, with at least two conjugated carbonyl groups; and wherein the photochemical step comprises irradiation of the photochemically reactive compound (Q) with non-ionizing electromagnetic radiation having a wavelength in the range from UV to visible light. <div style="text-align: center;">5196478 5292873 5427779 WO 9102768 EP319957</div>
